IT TEAM INTERSHIP

Electrolux
Sankt Göransgatan 143
112 51 Stockholm

To whom it may concern,

As both an engineer and a web designer, I was thrilled to see this internship offer in your IT team. I understand the important of being involved to Electrolux, and based on the job openings in your IT and design teams, I believe my skills would be useful in many areas such as responsive design or data analysis. I know the difficulties of living in abroad, owing to my work experiences in USA, I have confident that I would fit easily to Electrolux. I also believe that having a perspective from a different culture, might help you with solutions that change how you change lives for the better.

Are you looking for an intern with:

- Excellent communication and teamwork skills?
- Understanding of scripting languages and programming?
- Knowledge about Microsoft Office Programs and such?
- Fluent in English and experience in living abroad?

If this is the case, there is no need to explore any further. My accompanying résumé demonstrates that I satisfy all of these requirements and more.

I'd love to talk about opportunities with you. I'm excited to talk about how my abilities can help Electrolux. You can contact me via e-mail to set up an interview.

Thank you for taking the time to review my resume. I look forward to talking with you.

Sincerely,

Muhammed Alperen AYDIN
